

## School Improvement Plan Children's Version 2025 -26

### Behaviour and Attitudes

At Singleton, the staff are working hard to make sure that everyone shows kindness, respect, and the best behaviour in all parts of school life. They're helping us follow our CARE ethos:

- **C – Choices:** Making the right choices with wisdom and endurance.
- **A – Aspiration:** Dreaming big and respecting ourselves and others.
- **R – Reflection:** Thinking about our actions and showing love and care.
- **E – Engagement:** Building friendships, trusting others, and being a strong part of our community.

### Developing Teaching

#### Talking About What You Know.

All the staff will work with you to help develop Pupil Voice. This means helping you feel confident to talk about what you've learned, what you remember, and how your learning connects with what you already know.

#### Making Learning Stick

The staff are also finding new and fun ways to help you remember things in every subject. This includes using quizzes, songs, and games to make learning exciting and memorable!

### Behaviour and Attitudes

- The staff will teach us what good behaviour looks like and show us how to act kindly and responsibly.
- We'll have lots of chances to practise positive behaviours, and they'll celebrate and reward us when we do well.
- If anyone needs extra support, the staff will help with strategies to make good choices.
- Mrs. Clayton and Mrs. Millward are making sure that everyone understands how the CARE ethos helps us grow and succeed.

#### How MyHappyMind Helps Us

The school will also keep using MyHappyMind to help us understand our emotions and build resilience. With fun lessons and activities, we'll learn how to handle challenges and be our best selves every day.

Together, we're making Singleton a place where everyone feels valued, grows in confidence, and achieves great things! Let's keep working together to make it amazing

### Developing Teaching

This year, the staff are working hard to help you learn even more and enjoy your lessons. Here's what they're doing:

**Knowing and Remembering More** Mrs. Millward is helping the staff to use the **RETAIN** strategy in all your lessons. This will help you make excellent progress by focusing on knowing more and remembering more of what you learn. She will also make sure you know when "new learning" is happening in lessons, so you can spot the exciting things you're about to discover!

### Curriculum

Here's how the staff are working to make your learning experience even better this year:

1. **Updating the Curriculum**
  - The Government is making changes to the national curriculum. Mrs. Clayton will ensure that all the staff understand these updates so that your lessons include all the new and exciting changes.
2. **Focusing on Your Work**
  - Mrs. Clayton and Mrs. Millward are working to make sure all children take pride in their work. They want the work you do in every subject to be the very best it can be! They'll encourage you to produce neat, high-quality work that shows just how much you've learned.
3. **Checking Your Books**
  - Mrs. Clayton, Mrs. Millward, and the Governors will look at your books to see your brilliant work! They'll talk to you about what you've learned, what you know, and how you present your work. This helps them make sure you're proud of everything you do at school.

The staff are excited to help you reach your potential and make this year a fantastic one for everyone!

### Christian Distinctiveness

This year, the staff are working on exciting ways to help us live out our Christian Vision and explore our faith in meaningful ways. Here's what they are going to do:

1. **Helping Us Understand Our Christian Vision**
  - Mrs. Rund and Mrs. Millward will look at the displays around school to make sure they help us understand our Christian Vision and remind us how we can live it out every day.
2. **Weekly Worship Plans**
  - Mrs. Clayton and Mrs. Rund will plan our weekly Worship sessions. These will include important events from the Church calendar, *Big Questions* to get us thinking deeply, and topics about real-life issues, like charity work and world events, that affect people across the globe.
3. **Outdoor Reflective Areas**
  - Mrs. Rund will work with the Christian Leaders to create inspirational outdoor spaces where we can reflect and think quietly during breaks. She will also train the Christian Leaders to lead reflection times and come up with *Big Questions* linked to our Christian Values.
4. **Learning About the CARE Curriculum**
  - Mrs. Millward and Mrs. Rund will teach us about the CARE curriculum, showing us how it can help us make good choices, aim high, reflect on what we've learned, and stay engaged in our learning and faith.
5. **Visitors to Enrich Our Learning**
  - Mrs. Rund will explore ways to bring visitors into school to help us learn more about Christianity and other World Faiths. These visitors will make our learning even more exciting and help us see the world in new ways.
6. **Exploring Justice and Responsibility**
  - Mrs. Rund will help us learn about important topics like water aid, climate change, and Fair Trade through worship and charity projects. This will help us understand how we can take responsibility and make a difference in the world.

These amazing plans will help us grow in our faith and learn how to live out our Christian values every day. Let's look forward to a wonderful year!
