Online Safety Policy for our children

What is Online Safety about?

At Singleton C of E School, we want to help you and teach you how to stay safe online.

There are four areas of online safety that we will learn about called the 4 C's.

Content	Contact
This area is all about what you post online and what you look at online. Is it appropriate for your age?	This area is all about who you are speaking to online. Do you know them?
Conduct	**Commerce**
This area is all about how you act online and how other people act towards you. Are they being kind?	This area is about being tricked online to either buying things, gambling or tricks websites use to get your money.

Singleton C of E Primary School

If you are worried about something that is happening to you online you can:

Talk to <u>any</u> adult in school. If you are worried, we will always listen!

Report it on the website or ask an adult how to.

Tell a grown up at home.

Write it in a worry box.

<u>Staying safe online at school</u>

- Keep your passwords and usernames a secret.
- Use an avatar rather than a picture of yourself.
- Only google appropriate things. We monitor everything that happens online. Be sensible.
- Look after our school equipment. Treat it with respect.

<u>**If something comes up on your device that you don't think you should see. Always tell your teacher so they can help you.**</u>
